

How to get extra recruitment help from #TeamHerts Volunteering

WEBSITE

Our new website is linked up with Do-it.org which means all roles which are added to that site in Hertfordshire will also feature on our site. This is done automatically with any new role*

To receive other support, you must also add #THV as an admin. This can be done by signing in, clicking on Your Do-it > Recruiter Dashboard > Administrator > Add Administrator > Volunteering@Thvolunteering.org.uk and click all the opportunity boxes.

SOCIAL MEDIA

We advertise volunteer roles through a range of social media platforms. These include Facebook and Twitter. If your role is on Do-it and we are an Administrator, then we will automatically choose roles to advertise across social media. If you want a special push let us know and we will see where we can fit you into our schedule. Email communications@thvolunteering.org.uk for more information about social media

EVENTS

#TeamHerts Volunteering holds volunteering events across the county. All our fairs and workshops are on our website and opportunities for stalls or speak slots are advertised in our website and newsletter. We also attend as many public events as we can to talk about volunteering. If you have added us as an Administrator, we will also take your role to these events.

CORPORATE BUSINESS

We are contacted by several businesses from across Hertfordshire looking to engage in the local community. We are always keen to hear from any organisations who would be willing to have a group of individuals come support with day to day tasks or complete a larger job. If you would like to discuss this further get in contact : enquiries@thvolunteering.org.uk

CORRESPONDENCE

Our e-newsletter goes out to over **1400** individuals across Hertfordshire who have highlighted they want to know more about events and news on volunteering in the county. We will feature a small number of opportunities in here. These will be taken from those who have added us as an Administrator on Do-it.org.

DO-IT.ORG

Our partnership with Do-it.org means that your role will also be advertised through their site and receive the benefits of being promoted on a national volunteering site.

**Please note we do not control the roles which are pulled through to our site. If your role is not featuring it is because we only feature the recent roles. Your role is still on Do-it for anyone who searches.*
